ONE MILLION CAMPAIGN FUND

**Wood's Campaign Has Cost
Nearly \$1,000,000 — Three
Sections of Lever Act Are

tigating Committee — Other
Telegraphic News.**

WASHINGTON, May 26.—Col.
William C. Procter admitted to-
day to the Senate investigating
committee that the Wood campaign
cost nearly \$1,000,000.

The burden of the campaign has
fallen on himself, Colonel Procter
said.

William Wrigley, chewing gum
manufacturer, and Colonel Mylchreod
of Chicago and "the Goodrich rub-
ber man of Akron, Ohio," were
named as contributors by Colonel
Procter, but he stated he did not
know how much they gave.

Contributions to the fund of At-
torney General Palmer's campaign
for the Democratic nomination for
president were placed at \$53,410 by
former Representative C. C. Carlin
of Virginia, his campaign manager.

**THREE SECTIONS OF
LEVER ACT INVALID**
INDIANAPOLIS, May 26.—Three
sections of the Lever act were
held unconstitutional by United
States District Judge A. B. Anderson,
in federal court today, quash-
ing the counts of the indictment
against miners and operators, based
on these sections.

Four counts, based on Section 9
of the Lever law, which the court
held valid, were declared operative
and were not quashed by the judge.

The motion to quash the indict-
ment was made by Charles Evans
Hughes, former justice of the su-
preme court, on behalf of the min-
ers May 7.

Count 15 of the indictment, based
on Section 27 of the criminal
code, was also quashed.

**VILLA CAPTURES TWO
AMERICANS, REPORT**

WASHINGTON, May 26.—Pancho
Villa has taken Homer C. Carr and
a man named MacDonald prisoners
at Jimenez, Chihuahua, according to
a report received at the state de-
partment here today. The word
was received at the capital from
the American consul at Chihuahua.
No details were given.

Carr was identified by the state
department as a mining engineer of
New York City.

"MacDonald" was thought to be
M. C. Donald, Vernon, Texas, who
went to Mexico this year as an
employee of the Huasteca Petroleum
Company.

NEWS ABOUT RICHMOND

The News is just dying to
impart to the people some
good news it has, which has
to do with the future and
also the immediate upgrowth
and prosperity of Richmond,
but we have promised to keep
mum for a few days, or maybe
a few weeks, as the case may
be. When real big and good
news comes along, when it is
usually so scarce, it is hard
for a newspaper man to get
pedal it, but of course there
are some business affairs
which cannot be given pub-
licity until the right time ar-
rives.

All we can say now is that
if you have had any doubts
about Richmond's future pros-
perity, cast them out. Rich-
mond made a wonderful gain
the last census, but it will
beat it on the next one by
several hundred per cent.

WILL SOON REPORT ON RECENT DRIVE

Results of the Salvation Army
drive conducted here during the last
two weeks will be made public on
Saturday by Hiram Jacobs, chair-
man of the county committee in
charge of the campaign.

Reports received by Jacobs indi-
cate that the county quota of \$5000
has been raised and probably ex-
ceeded. Collections are still being
made in the northern part of the
county, and a few hundred dollars
are yet to be collected in Rich-
mond, although the solicitation of
funds has ceased. C. E. Clark, Rich-
mond chairman, reported yesterday
that the local quota of \$3500 had
been exceeded by two or three hun-
dred dollars. The total collections
for the county up to yesterday
morning had been a little more than
\$4000, but more than \$2000 has
been pledged that is yet to be
collected and will be received be-
fore the end of the week.

POVERTY PARTY TO BE HELD TONIGHT

Members of the Epworth League
of the Wesley Methodist Episcopal
church will give a "poverty party"
this evening at the church parlors.
This form of an old fashioned
"Hard Tyme Soshul" will be com-
prised of several novelty booths and
games of all kinds.

One of the most interesting fea-
tures of the evening will be the
presentation of a one-act play en-
titled "Embalming of Ebenezer."
The committee in charge is com-
posed of Misses Katherine Frynke,
Nina Moody, Stella Shoemaker,
Ethel Kates, Messrs. George Lutz,
William Hosking, Tyrrell Anderson
and the Rev. Paul Little.

DAMAGE SUIT POSTPONED
The damage suit of John H.
Nichol, Oakland capitalist, against
Edward J. Gerrard, city council-
man, for alleged slander, has been
postponed from June 2 to June 15.
The entire of fifty for a jury has
been issued.

BOOZER FINED FOR HAVING RED STUFF

**Crockett Adm. Soaked \$150 and
Loses Ten Gallons—Police

Old Concord Girl—Old Coal
Mines to Be Reopened—
Other Late County Happen-
ings.**

Peter Ruggierillo, former hotel
man of Crockett, was fined \$150 by
Federal Judge Van Fleet yesterday
in Sacramento for transporting li-
quor in his automobile. Ruggierillo,
with two companions, was ar-
rested by Special Agent A. R. Shurt-
liff with ten gallons of wine in his
machine on his way from Sacramen-
to to Modesto.

The machine had been run into
a field to avoid an accident when
the arrest occurred. Because his
two companions did not have any-
thing to do with the wine and
were merely riding with the de-
fendant, their cases were dismissed
upon motion of the United States
attorney's office.

YOUNG GIRL MISSING

Police of the bay cities today are
searching for 16-year-old Agnes
Kane, Concord school girl, who dis-
appeared from her home Saturday.
The girl, according to police an-
nouncement, is said to have been
accompanied by a man, who is said
to have three \$50 Liberty bonds
in his possession. The girl has red
hair and blue eyes, is 5 feet 2
inches tall, weighs 175 pounds and
was wearing a brown suit and
large black straw hat when she
disappeared.

MAY RE-OPEN COAL MINES

That the old Tola coal mines
may once again team with the
horny-handed sons of toil is not
beyond dispute. In fact, a syndicate
of Pittsburgh capitalists may take
over and operate the property, in a
rumor now going the rounds in the
southern portion of the city.

A trip by William Mortimore,
Jack McGlashin and Pete Daly to
the underground workings a week
ago Sunday, has revived interest
in the mines, which are far from
worked out, it is known. This trio
brought back samples of the coal
and submitted them to Andrew
Daly for an expert report. Daly,
they say, can trace the cellulose
wood, rough lignite, or brown
coal, and soft, or bituminous coal,
to hard coal, or anthracite, or as
a final product to graphite, down
through the decreasing volatility
and increasing carbon content. On
his report will depend one of the
biggest industrial ventures projected
in California in a long time.—
Pittsburgh Dispatch.

HONOR UNKNOWN DEAD

The G. A. R. of Richmond will
render their yearly tribute to un-
known dead comrades at the San
Rafael ferry tomorrow, when flow-
ers will be strewn upon the waters
of the bay and the ritualistic ser-
vices of the order will be conducted.
All strangers have been requested to
meet at Sixth and Macdonald ave-
nue at 1:15 o'clock tomorrow at-
ternoon to proceed to the ferry,
where the services will be held.

Garfinkle announces in his ad-
vertisement this morning that his
20 to 40 per cent discount sale is
still on. We were rubbing it in
the windows yesterday, and must
say that the late styles shown are
very pretty and tasty. Also consid-
erably lower than some time ago. We
also noticed a rattling good run
of men's clothes displayed at \$27.50,
and are wondering how an editor
would look in a swell outfit like
that.

Mrs. J. S. Arnold secured a di-
verse from J. B. Arnold of New
York City in the superior court last
Tuesday. Jack Crow of Richmond,
her brother, was in the witness
stand.

CONVENTION WINE IS SEIZED BY OFFICERS

CHICAGO, May 26.—Prohi-
bition agents made a mistake
in seizing a carload of wine at
Needles, Cal., today. It was
declared by Ernest Beffeld,
head of the Hotel Sherman
Company.

"We had a special permit
for this wine and will cer-
tainly take action to get it
out of California," said Mr.
Beffeld. "It was to be used
by us for medicinal and sacra-
mental purposes. Since prohi-
bition went into effect we
have had a federal permit to
sell wine for these purposes."

A freight car, shoved on a
side track at Needles by a seal-
ing prohibition officer, could
tell a story, were its silence
broken, of a loss to the
world in oratory, music and
money to be wagered on poli-
tics.

For that car, filled to the
top with California cham-
pagne and billed for Chicago,
where the Republican conven-
tion is to open on June 8, is
conceded to pass to some-
thing like the nth degree the
kick that puts the nail in
delegates.

GRADUATION IS IMPRESSIVE SCENE

Last night in the high school
auditorium graduation exercises for
the naturalization class were held.
Friends of sixteen families saw
their neighbors walk to the plat-
form and be presented with diplo-
mas that certified to their having
passed their citizenship examina-
tions, following a comprehensive
course at the night school.

The following program was ob-
served:

Music: American Legion Orche-
stra.

Boys Chorus: High School.
Address: Wm. H. Hanlon, county
superintendent of schools.

Presentation of Certificates: F.
N. Littleton, bureau of naturaliza-
tion.

Girls Chorus: High School.

Significance of American Cit-
izenship: Rev. Paul Little, chair-
man American Legion Americaniza-
tion committee.

Presentation of flags on behalf
of High Lodge: G. B. Freudenberg.

Presentation of flowers to new
citizens from Ladies of G. A. R.:
Mrs. Jarvis.

Communion singing by pupils of
night school, concluding with
"America" by the audience.

Speeches were made commending
the new citizens on their splendid
work, but for some reason the pro-
gram did not include an answer
from one of the class.

Steve Barilaga was appointed by
the class as a committee of one to
thank all those concerned in mak-
ing the entertainment the success
that it was, and he has taken this
means of expressing the gratitude
of the foreigners.

Here as the organizer of the Pa-
lenic Association and is the one
who successfully petitioned the
Greek government to declare a hol-
iday to be celebrated by Greeks all
the world over in honor of the
United States.

Mr. Barilagas last night declared
in reply to the presentation of the
diploma, flag and flowers that were
given him by the high school, Elks
and Ladies of the G. A. R., re-
spectively.

"In my hand I hold a certificate
which proves my knowledge of the
constitution. I shall be loyal to
this constitution not only from
loyalty to myself, but from loyalty
to the law which I have sworn to
keep.

This flag in my hand is the
banner that signifies that all men
are created equal, and I hope that

OIL SHORTAGE SERIOUS TO THIS CITY

**Curtalement of Joy Riding
Outs No Ice; the Seriousness
Lies in the Fact That the
Oil Supply Is Giving Out
and in Ten Years There
May Be No S. O. Plant Here
at All.**

There is no use kidding ourselves.
The oil outlook is most decidedly
gloomy, and it is not a bad bet
that inside of ten years, and maybe
long before that, there will be no
oil refining plant in Richmond at all.

The oil wells all over America,
and especially in California, are
going dry.

Half of the entire supply of the
great underground pools has been
exhausted since the first commer-
cial well was driven in Pennsil-
vania in 1859.

The crust of the earth has been
thoroughly explored, and there are,
in all probability, no more such
great continental fields as those of
California and Texas.

That is the real force behind the
flaming words, "GASOLINE SHORT-
AGE!" that have been shrieking
out from seven-column newspaper
advertisements in type two inches
high, and which caused seven mil-
lion American automobile owners
to reach for the emergency brake.

Scientists, geologists, government
experts and experts of the oil in-
dustry have thoroughly investigated
and this, in a nutshell, is the gist
of their reports.

Since the underground pools were
first tapped some seven billion bar-
rels have been taken out.

The consumption in America
alone is close to 400,000,000 barrels
a year.

At the present rate the whole
supply will be exhausted in a few
years.

And Then What?
The California wells may not last
ten years, as they are known to be
greatly depleted now. The next
best and largest supply that the
Standard Oil plant of Richmond
could get would be from Mexico.

This would have to be hauled to
refineries in tank ships, instead of
being pumped here 300 miles, as it
is now. And that being the case
the question naturally arises—
would those tank ships come on up
here to Richmond, or stop at some
such place as El Segundo, hundreds
of miles nearer the source of sup-
ply? Or might not the refineries
be dismantled and moved to Mex-
ico?

There is no information to be
got from the Standard Oil Com-
pany—one could not pry it out of
them with a crowbar—but the facts
remain that the oil is fast petering
out and no more to amount to much
is being found. And there is only
one logical result to that, which
most anybody can figure out.

Shale Supply Abundant
In a few years' time the oil sup-
ply of the country is going to come,
according to all the best authority,
from the vast deposits of oil shale
rock in Colorado, Wyoming and
Utah. There is no end of this, but
the process of getting it is different,
and necessitates the refineries be-

PLUMBERS VISIT HERE TOMORROW

The Chamber of Commerce has
appointed H. O. Watson as chair-
man of the committee in charge
of the reception to the delegates
of the State Master Plumbers' con-
vention, who will visit this city to-
morrow.

In convention in Oakland, the
plumbers will come here to visit the
local factories manufacturing plum-
bing fixtures.

The party will start from the
Hotel Oakland at 10 a. m., and
will first go to the Pacific Sanitary
Manufacturing Company's plant
here, where luncheon will be served.

Later the plant of the Pacific Power
and Light Company will be visited, and
the master plumbers will be shown
the industrial development of the
city.

FAREWELL PARTY GIVEN TO BOONES

Mr. and Mrs. W. L. Ballenger
entertained a large number of
friends on Tuesday evening in honor
of Mr. and Mrs. W. A. Boone. Their
home, at 420 Eighth street, was
very prettily decorated with Ameri-
can beauty roses and ferns. Fol-
lowing an evening of bridge and
music refreshments were served.

Mrs. Boone and her daughter,
Moreen, will leave next Monday for
their ranch home near Santa Rosa,
while Mr. Boone will still remain
with the Western States Gas and
Electric Company, spending the
week-ends with his family.

Those at the farewell party were:
Dr. and Mrs. U. S. Abbott, Mr.
and Mrs. Roy Selby, Mr. and Mrs.
James T. Nabbert, Mr. and Mrs.
H. W. Lunceford, Mrs. Robert Saun-
ders, Miss Nora McNeill, Mr. and
Mrs. W. A. Boone, Mr. and Mrs.
W. L. Ballenger and Mr. and Mrs.
George N. Hooker.

PERMITS ISSUED

A permit for the erection of a
brick garage at the northeast cor-
ner of Thirteenth and Macdonald
avenue, for James McMillan, at a
cost of \$12,400, was issued today.
J. C. Thornton is the contractor and
work on the building has already
started.

Permit to erect a cottage on Bur-
beck avenue, between Fifteenth and
sixteenth streets, at a cost of \$4100,
was issued yesterday. Carl Overan
is the contractor.

RAIL RUMORS RIFE FOR RICHMOND

**Hundreds Who Work Here
But Live Elsewhere Are De-
manding Better Transpor-
tation Service—S. P. Co. Buys
Right of Way Through
Richmond Annex—Berkley
Heard From.**

The following, from the Berkeley
Times, and a dispatch from Berke-
ley, would indicate that trans-
portation service to and from Rich-
mond is, occasioning recognition
from both the electric and traction
companies:

"The necessity for a new street
car line between Richmond and
Berkeley grows more urgent every
day. The number of students com-
ing to the university is steadily in-
creasing. The groups of men liv-
ing in Berkeley whose work takes
them to Richmond are constantly
growing. Many individuals travel-
ing between the two places have to
reach their destination in a roman-
tically fashion, often transferring
twice.

"A new car line to correct such
conditions could be constructed
without disrupting the present ser-
vice and at an advantage to every
one concerned.

"A feasible plan would be to
extend the Spruce street car line
down Los Angeles avenue to the
Thousand Oaks line at the city.
From the end of this line build
past Sunset cemetery to San Pablo.
The amount of new track necessary
to accomplish this would not ex-
ceed a possible mile and a half.
Thus the Grove and College avenue
cars could be run over this route
all the way to Richmond and to
the Richmond ferry. This could be
made a ten-minute service out of
Richmond by alternating the San
Pablo cars and the cars over the
new line.

"This is just a tentative plan.
Other better ways may present
themselves. The main thing is to
think about the new idea and
evolve some practical efficient
means by which it can be put
into execution."—Berkeley Times.

S. P. BUYS RIGHT-OF-WAY

MARTINEZ, May 26.—Dana
transferring to the Southern Pa-
cific Company a right of way
through the Richmond Annex from
the Alameda county line into the
City of Richmond at a point near
the Sierra railway station have been
placed on record. The property
was purchased from the E. J. Han-
derson Company, Oakland, and is
the center of what is known as the
Panhandle boulevard and is located
about a block west of San Pablo
avenue.

When the Richmond Annex tract
was placed on the market, the right
of way was reserved by the Han-
derson company, with the under-
standing that the Southern Pacific
company would establish a branch
of its Albany electric service into
Richmond. The railway company
also has a franchise along Cutting
boulevard into the heart of Rich-
mond.

The transfer of the right of way
is taken to mean that the Southern
Pacific has not abandoned its plan
to build into Richmond.

WOOD WILL NOT DO

It is a self evident fact that "Big Business," the profiteering corporations and the Wall Street money kings have started out to control the Republican national convention and nominate General Leonard Wood for the presidency. Having bought the nomination, they propose to then buy the election, just as Mark Hanna did for McKinley for \$10,000,000.

At the probe now going on in the Senate, William Cooper Proctor testified yesterday that he had individually contributed half a million dollars to the Wood campaign fund; that others had contributed something less than that amount, and that he intended to contribute as much more as he deemed necessary to nominate Wood.

Here is a million dollar slush fund already spent before the convention meets. From this it is to be presumed that millions more will be spent among the delegates and their wire-pullers. There is no other rational conclusion to arrive at.

What does this all mean? Are the American people sunk so low down in the scale of humanity that a majority of them are for sale to the highest bidder? Why, say, friends, we would not vote for that man Wood for dog-pelter. Any man who will countenance any such high-handed boodle procedure as that is too contemptible for any honest man to speak to, much less vote for.

Why do these millionaires and billionaires put up this boodle for the purpose of corrupting the politicians and people to bring about the nomination and election of any one man?

Can you think of any other reason than that man is to be a puppet in their hands, to do their every bidding? If there is any other reason, what is it? But even aside from all this rotten financing on the part of those who are today robbing the whole people, there are other very grave and important reasons why this man Wood should not be elected to the presidency of the United States. Among the greatest is the fact that he is an army officer, born and bred to militarism, who talks, thinks, eats and drinks militarism, and who doesn't know anything else but war and military discipline. He said himself, recently, that as between law and discipline the latter should be first.

With such a man as chief executive and head of the army and navy, what would be the result? You can well imagine it.

Do we want more wars, more great standing armies and monster navies? Or do we want partial disarmament and to get down to business where we belong? Do the boys who have just got back from bloody battlefields want more of it? They do not. And neither do the people.

But Wood does, and so do the millionaire munition makers, shipbuilders, steel kings and big profiteers of all kinds. Out of war and our misery they accumulate billions.

Wood will not do.

INTERESTING FACTS

We learn from the prime minister of Queensland, Australia, who is in this country getting information relative to the steel industry, that sugar, which is selling above 30 cents a pound in some parts of America, can be purchased in any lots in Australia at 8 cents. The reason for this, the official says, is because of governmental regulation. Then why don't we get some of that same brand of regulation in this country? If sugar can be sold at a profit in Cuba at 7 cents and in Australia at 8 cents, how comes it that we have to pay from 27 to 32 cents?

This gentleman also informs us that an Australian can send a telegram from Rockhampton to Perth for about one-fourth what it costs to wire from San Francisco to Washington, about the same distance, and telegraphs pay well in Australia—says the prime minister.

Unskilled labor in the factories of Australia is paid \$3.50 a day, but board is only \$5 a week. The Australian government owns its own railroads, and is now about to make its own rails, locomotives and equipment.

There is no "inferior" race labor in Australia; all laborers are white.

THINKOGRAPHS

The fight of the law-breaking boozers continues to find some way to evade and break the law. Was there ever a saloonkeeper that desired to be a law-abiding citizen? Not that we ever heard of.

There are lots of love matches between old men who are rich and young girls who are poor, but there are none between old men who are poor and young girls who are rich.

An anonymous writer says at the end of his letter "more anon," but we feel sure that he is mistaken. Anonymous letters are not printed. So, if there is nothing at the start, there can't be more anon.

Mary Van Kleeck asks: "Is housekeeping due to become obsolete?" Well, Mary, if housekeeping goes out, the timorous and agitated rats will cease to appear in the office of the marriage license clerk looking like a frightened dunce.

Be reasonable about indulgence in luxury. The need for thrift is perennial. You will never be worth a continental unless you acquire a home, a wife, and anywhere from five to fourteen children. Then you will have something to live for.

The world will be more intelligent when it learns that the world would be wealthier with a 3,000,000,000 bushel wheat crop than with a 1,000,000,000 bushel wheat crop, although the chances are the latter would bring more money. Unless Adam Smith was an idiot, abundance signifies wealth; scarcity signifies poverty.

Editorial restraint is a wonderful institution. Think of the many opportunities for your favorite paper to tell "all it knows." If it ever did you would be willing to pay a dollar a copy—unless the joke was on you.

The New York World talks about the "state impoverished by prohibition." The World is a little paradoxical, a little imbecilic, and entirely unaccountable in making such a statement as that. How does it happen that a state, composed of twelve million individuals, can be impoverished by refraining from wasting the reward of its toil?

The modern ambition is not to become a great worker, but a great preacher, agitator, or politician. The most respectable of all callings is farming, or supplying the first necessities of life. Yet our funniest jokes are directed at the farmers, who are said to go to the communities where smart people live, and blow out the gas.

ROAD WORK PROCEEDS AS SUIT IS DROPPED

The controversy between F. Rolandi, highway contractor, and Fannie Bancroft of Walnut Creek over Rolandi taking water from the creek for highway construction has been settled out of court and construction of the highway between Martinez and Dublin will not be hindered. Hearing for an injunction to prevent Rolandi from taking water from the creek was scheduled for yesterday, before Superior Judge R. H. Latimer. Neither side made an appearance.

Although the terms of the settlement have not been made known an agreement has been reached whereby Rolandi will take water from near Hamburg Springs.

Paid \$50 Fine For Killing Quail

Having quail in one's possession at this time of year is rather luxurious, as Martin Urbach, of Crockett, will testify. Urbach was arrested by Game Warden Duncan for having two quail on his person. He was fined \$50 by Justice of the Peace Ray Standish. Warden Duncan declares there is considerable quail shooting in the Crockett district and that more arrests may be expected.

Wrecked Auto Found in Tunnel

OAKLAND, May 26.—An automobile of the roadster type bearing the license number of 413939 and listed by the state motor vehicle department as belonging to Cary Corry of Martinez, was found today on the Skyline boulevard near the tunnel practically a total wreck. The car had gone over a grade bringing up against a tree 100 feet from the highway.

Demands Autos To Satisfy Note

C. F. Penner of Richmond yesterday filed suit in the superior court against A. W. Neel and P. A. Sturtevant to foreclose on a mortgage held against four automobiles belonging to defendants.
Neel and Sturtevant, the complaint alleges, executed a promissory note for \$4708 in favor of Penner, on which neither the principal or interest has been paid. One of the machines under mortgage, the complaint charges, has been sold to F. B. Brazil. T. H. DeLap is attorney for plaintiff.

DANIELS DECLARES STEAMROLLER USED

WASHINGTON, May 26.—Declaring that a "steam roller" was being used on him, Secretary Daniels told the Senate naval investigating committee today that he would appeal to the full committee if Chairman Hale insisted on putting into the record "an unfair and unfounded" statement as to conditions of American warships when the war began.
Before the secretary's announcement, Senator Pittman, Democrat, Nevada, warned Chairman Hale that he would protest on the Senate floor against the character of the questions which the chairman was asking Daniels.

MAN MAKES MILLIONS BUT IS CALLED CRAZY

NEW YORK, May 26.—Despite the fact that the estate of John W. O'Bannon has increased in value about \$2,000,000 during the last fifty-five days and that it is estimated at more than \$15,000,000, he is compelled to remain an inmate of the Riverdale sanitarium, having been adjudged mentally incompetent by a sheriff's jury. The physicians who pronounced O'Bannon incurably insane in their testimony agreed, however, that he is a remarkable business man and possessed of unusual memory.

WOOLEN MAGNATES ARE HELD AS PROFITEERS

NEW YORK, May 26.—The American Woollen Company was charged with profiteering in an indictment returned here late today by the federal grand jury. With the American Woollen Company of New York were indicted the American Woollen Company of Boston and William M. Wood, president of both companies.

CHICAGO SOCIETY MAN RELIEVED OF LIQUOR

CHICAGO, May 26.—Chicago's "gold coast" section—comprising the homes of the wealthiest and most socially prominent residents of the city—was in a furore today as the result of a raid by prohibition agents on the apartment of Charles B. Smith, millionaire president of a speedometer company, in which ten cases of whisky were seized and carted off to government warehouses.
The raid, it was declared, was made in connection with the federal investigation of the "million-dollar whisky trust," which is said to have supplied big quantities of liquor to the homes of the wealthy.

INDIA IS SCENE OF NAZIMOVA'S PLAY

Appearing in the role of a London music hall dancer, Nazimova, at the Richmond theater today in "Stronger Than Death," has part in a play, the story of which is lurid with conflict and action to suit the most imaginative.
Briefly, it concerns one Sigrid Fersen, favorite of Paris and London theaters, who arrives in an English army barracks town deep in the jungles of India. She meets a hostile reception from the small and gossiping community of British, but her personality wins them after her first test.

She falls in love with a physician, known as the hermit doctor, who is devoting his life to treating the native Indians during an epidemic of cholera. Because of the harshness of the British commander of the post, and a wrong he had committed against "the bride of Vishnu," a sacred dancer of the temple, the native troops, incited by the high priest of the temple, plan a revolt.

On the night the uprising is to take place, with a massacre of the whites as its object, Sigrid goes to the temple steps to dance in the moonlight, and fills the natives with awe. She dances until she is exhausted, in order to hold the blacks from their contemplated revolt, and by so doing enables British reinforcements to get up and save the situation.

Pichmond People Prevent ppendicitis

Many Richmond people are using simple glycerine, buckthorn bark, etc., as mixed in Adler-I-Ka. This flushes BOTH upper and lower bowel so completely it removes all foul, accumulated poisons from alimentary canal and prevents appendicitis. Adler-I-Ka relieves ANY CASE gas on stomach or sour stomach. Often CURES constipation. In one case of chronic stomach trouble ONE bottle produced wonderful results.—Chas. Niederker, druggist.

Oil Shortage Serious to This City

(Continued from Page One.)
ing where the tonnage of oil shale is.

That such big oil companies as the Standard know all about this matter and these conditions, goes without saying, and that they are preparing for it may be taken as a matter of course.

The stopping of their building program here and the discharge of over a thousand men in the past two weeks may have something to do with these facts, and then again it may not. We are inclined to assign the cause of the curtailment to other causes—and not alone scarcity of material, either.

Richmond Must Look Ahead
A smart man looks ahead and prepares for what is coming, or for what might come, and so do smart cities. Richmond cannot afford to sit supinely down and leave its destiny as a city in the hands of wrapped up in the future of any one industry, for disaster may come any time. If the Standard Oil refinery should quit operations today, what would become of Richmond tomorrow? Go look at the ruins of Creed, Colorado, ten years ago the greatest gold mining place in the world and a city of 30,000 inhabitants—today there is not even a railroad to it, and its magnificent brick buildings are inhabited by bats and owls.
Goldfield, Nevada, is another similar instance. We cannot afford to take chances.
Richmond must use every possible endeavor to get other and different kinds of industries here, so that if one drops back, or curtails, others will go ahead. And the quickest way to bring other large industries here is to make Richmond a world ocean shipping port as fast as work and money can do it.

LOCAL LAONICS of Richmondites

Judge John Roth is home again after a two weeks' visit to his old stamping grounds down in the Tulara and Visalia country. He met a lot of old friends there and had a good time. The Judge says the future perplexing problem for that country is water.

Walter Gianelli, business man and agent for the Comet car, made Martines yesterday.

The Big Store has joined in with the other merchants and is making a big cut in prices as a special week-end event, as per advertisement elsewhere in this issue. They are offering some alluring bargains.

Burt Curry went up to Martines yesterday, to ask the court house fellows why they did not die and get buried, as he was tired waiting for them. They said they never intended to die, and were eating glands now, so they could live forever.

Lost, strayed or stolen, both Kueffer and Long, couldn't find either one of them yesterday or last night with a fine tooth comb.

The LaMoine drug stores are in on the week-end cut prices, and have a display of useful articles marked way down.

Mrs. W. A. Quinly was very agreeably surprised Tuesday evening, when a number of friends came in to help celebrate her birthday. Mrs. Quinly and Miss Geraldine Quinly expect to go to Los Angeles soon for the summer vacation.

Mrs. A. B. Dickstein was given a divorce from A. B. Dickstein in the superior court Tuesday. Property rights will be settled out of court.

A pleasant surprise was tendered Mrs. Frederika Blume on her seventy-eighth birthday at her home in San Pablo. She received many gifts. The dining room was beautifully decorated for the occasion and a most enjoyable time was had by all.

One of the big pre-commencement events of the Richmond high school will be held tomorrow evening in the auditorium, when the undergraduates will tender a great ball to the graduating class. Roses will be the decorations of the entire school. Music will be furnished by Kallman's orchestra. The committee in charge includes: Ruth Robison, chairman; Gladys Rowe, Reese Hays, Hale Stoddard, Kenneth Mathieson, Phila Deluna, Nelda Kruger and Elizabeth Ellis.

A son was born Tuesday to Mrs. Carl Sleson at the home of her parents, Mr. and Mrs. C. W. Haynes, on Twenty-second street. Dr. Hall Vestal was in attendance.

When the Ladies' Aid of the Wesley M. E. church met yesterday afternoon at a tea at the home of Mrs. Hutt Brown, 519 Eleventh street, they each one told in rhyme how they had earned a dollar to be given to the society. Mesdames Eichar, Gray, Clover, Gregoit, Hartley and Healy assisted Mrs. Brown in the entertainment.

William Soby left yesterday for Riverbank.

Mr. and Mrs. E. Yeater, the latter a cousin of Mrs. Chandler, are guests at the Chandler home.

E. J. Wagner is taking a trip to the East on business.

Edward J. Hasey, former active politician, is a visitor to town after a long absence.

Mrs. Mary Smith was a visitor in Oakland yesterday.

Albert Fambriani was slightly injured and his automobile smashed, in an accident at Eleventh and Jefferson streets, Oakland, Tuesday night.

The losing team in the recent membership drive conducted by Onetah Tribe of Red Men of Richmond, will banquet the winning team at the new Martin's Grill, at Tenth and Macdonald, at 6 o'clock Saturday evening.

A birthday party in the form of a luncheon was given by Mrs. Chas. Pulse at her home, 352 Tenth street, in honor of the fourth birthday of her daughter, Barbara, Tuesday afternoon. Little Miss Pulse received many gifts.

The ladies' drill team of the Olive Yeomen will confer initiation on a class of candidates at the Pythian Castle tonight under the leadership of R. V. Stanton. The men will prepare the refreshments.
